### HAVE YOU SIGNED UP YET?

Only eight donors so far have signed up to give blood for the Red Cross Plasma Procurement program which is to take place here April 9 and 10 at Michelson Memorial Church. Hours on April 9 will be from 10 to 12 and 1 to 5 and on the 10th from 12 to 6.

There are only three units of plasma left in the county supply and the first 24 units obtained are to be sent to Korea for use of the Armed forces.

Units of county plasma can be traded with several out of town hospitals, for whole blood when the need arises. This was done for a local man recently who had no way of paying back blood given him in an out of the city hospital.

The American Red Cross has turned over more than 175,000 pints of blood for Korean wounded and military stockpiling since it was first called upon to supply blood to the armed forces last August, it was announced today by E. Roland Harriman, Red Cross President.

Red Cross blood collections have more than tripled since last July, Mr. Harriman said, and the organization has been able to fill all requests for whole blood for Korea and to make a good start on stock piling plasma.

"Collections must continue to increase however," he said, "if we are to continue to meet military and civilian needs." In commending the Red Cross on the expansion of its blood facilities to meet defense needs, Dr. Richard L. Meiling, chairman of the Armed Forces Medical Policy Council said.

"The armed forces will continue to need blood not only for overseas shipment but for our military hospitals and for our stockpiling of plasma."

"Because the American people are giving their blood for the armed forces the death rate among our military patients in the Korean campaign is lower than it has been in any other similar military campaign in the history of this country."

The death rate of Korean wounded is less than half of the World War II figure and only one-quarter of the rate among combat troops during World War I, according to Dr. Meiling.

It isn't too late, call 4781 and sign up now.

The program in the local school is divided into two parts, classroom work and behind-the-wheel training.

### Expect Fairly Heavy City Vote In Monday's Election

#### Light Total Vote Expected In County

A fairly heavy vote in the City of Grayling was predicted for Monday's Biennial Spring Election as seven Grayling men seek election to three Grayling City Council posts.

The city race has brought out most of the interest thus far in the Spring Election. The Council race is headed by the three incumbents, Don K. Gothro, Emil Giegling and Jesse Schoonover. Only Gothro has been elected to the Council post as the other two incumbents were appointed to their posts by the Council upon the resignation of others.

William LaChappelle, Donald Smock, Wilbert Simpson and Emil Tahvonon, all of Grayling, are also seeking the City Council post and are expected to give a strong run to the incumbents.

Three State Ballots will be handed to voters on Monday. The State Officers Ballot, a Non-Partisan Ballot and an Amendment Ballot. The amendment ballot carries three proposed amendments to the State Constitution.

The first is a proposal to set annual sessions for the State Legislature, the second to provide a bonus of \$500 to the survivors of any Michigan resident losing his life in military service from June 27, 1950 until the termination of the national emergency; the third is to provide for pay increases to Justices of the Supreme Court upon their election or appointment in order that all Justices may receive the same salaries while serving concurrently.

The Non-Partisan ballot is for the election of two Justices of the State Supreme Court. The two incumbents, Emerson R. Boyles and Neil E. Reid head the slates of six seeking the two Court posts. They are opposed by C. LeRon Simmons, Morton A. Eden, James H. Lee and Theodore P. Ryan.

The State Officers ballots are for the purpose of electing to Regent of the University of Michigan, Superintendent of Public Instruction, Member of the State Board of Education, and two Members of the State Board of Agriculture. Six parties are on the ballot headed by the Republican and Democratic slates with the Prohibition, Progressive, Socialist-Labor and Socialist-Workers parties also on the ballot. Each of the six parties has a full slate seeking the offices with the exception of the Socialist-Workers Party who have no candidates for the two members of the State Board of Agriculture. The Republican ticket is headed by Lee M. Thurston who is seeking re-election to the post of Superintendent of Public Instruction. The Democratic slate is headed by former Governor Murray D. VanWagoner, who is seeking election as Regent of the University of Michigan.

Only two townships in Crawford County are having any races in their election of their township officers. Beaver Creek and Maple Forest Townships both have full slates of two parties seeking election to the township posts. In Beaver Creek the Republican party slate is led by incumbent Supervisor Ivan Billman seeking re-election. He will be challenged by Frank Millikin on the Democratic ticket. Robert Ferguson, present Township Clerk is running on the Republican ticket and will be opposed by Ben Garand on the Democratic slate. C. J. Dible is the candidate for Treasurer on the Republican ticket with Andie Nelson, present Treasurer seeking re-election on the Democratic ticket. Reeves Shook is the Republican candidate for Justice of the Peace with Bernard Maurer the Democratic candidate. Lloyd Meyers and Herbert Ferguson are the Republican candidates for Constable and will be opposed on the Democratic ticket by John Canfield, Jr. and Robert Nelson. Cecil Canfield is the Republican candidate for member of the Board of Review and the Democratic candidate is Charles Hatch.

In Maple Forest Township voters will be offered their choice of two full tickets, one the People's Ticket and the other the Union Ticket. The People's ticket is headed by present Supervisor Roy Papenfus who will be opposed by Clyde Smith on the Union ticket. Ethel Hummel is the candidate for clerk on the Peoples ticket and will oppose present clerk, Martha J. Peterson who is running on the Union ticket. Opal Hamblin is the Peoples candidate for Treasurer with Pearl Babbitt the candidate on the Union Ticket. Archie Lozon is candidate for Highway Commissioner on the People's ticket and will be opposed by Harold Babbitt on the Union ticket. Stanley Hummel and Charles Owen are the two People's candidates for Justice of the Peace and will face opposition from George E. Howes and Arno Plagens on the Union ticket. Robert Feldhauser is the People's candidate for member of the Board of Review and Harold Babbitt will run for that office on the Union ticket. Earl Lovely is the candidate for Constable on the People's ticket and Robert Winston the candidate for the same office on the Union ticket.

ceived baptism. Then we were favored with two lovely Easter numbers by the male quartette from Grayling accompanied by Mrs. C. G. Clippert at the piano. Rev. Puffer was also with us and in his kind manner spoke a few words before assisting our pastor, Rev. Herbert Seebree with Communion service. Rev. Seebree gave a splendid Easter message and should inspire all to attend Church of their choice each Sunday. Rev. Puffer pronounced the benediction. ## THE CENTRAL IDEA

Things you'd like to know about your Railroad

Your Railroad's 125th Birthday

SQUARE WITH A GRAM was George William Featherstonhaugh. On April 17th, 1826... months after Britain launched the world's first steam train... he won from the New York Legislature a charter for a railroad between Schenectady and Albany... the start of New York Central!

FIVE YEARS LATER, that pioneering dream came true. The 16-mile Mohawk & Hudson Rail Road was complete. And its first locomotive... the American-built DeWitt Clinton... pulled a trainload of notables over the line, showing them liberally with sparks all the way!

PIONEERING AGAIN, in the 1890's, Central explored new realms of speed and luxury. Its Empire State Express, with Engines 999, set a world's record of 112 1/2 miles an hour. And the Exposition Flyer was the first to link New York and Chicago on a regular, twenty-hour schedule.

THE NEW in New York Central brings the story up to date. Miles of streamlined coaches and all-room Pullmans. Smooth new Diesel-electric power. A fleet of 68,000 new freight cars. A multimillion-dollar program to keep your Railroad 125 years young! For that is the CENTRAL IDEA.

## The Presidential Race

The people of the United States, and their government, are confronted by the greatest possible problems—war and peace, ever-rising taxes and inflation, more schisms between management and labor, the possibility of having to support a great military force here and abroad for many years, and so on down an almost endless list. But, in this as in the other democratic countries where free elections are still held, such problems never obscure the great old game of politics. So the question of who's going to run for President in unpredictable 1952 is beginning to be a hot topic of conversation among professionals and the rank-and-file alike.

First, of all, the feeling is very strong, in both Democratic and Republican circles, that Mr. Truman will not run again. The Constitutional amendment restricting any President to not more than 10 years in the job has been passed and, while it specifically exempts the incumbent, it is an indication of public feeling. Moreover, men close to the President say he has had enough of the job, and that his family, whose wishes he respects very strongly, are fed up with it. Mr. Truman has intimated that he would like to return to the Senate. No one knows if he really means this or not but, if he does, he would have a famous precedent in the case of John Quincy Adams who retired from the Presidency and spent the rest of his life as a member of the House of Representatives.

The great question mark is the appealing and somewhat confused figure of General Eisenhower. As Newsweek puts it: "If Washington is right about Harry S. Truman, there's a good chance that General Dwight D. Eisenhower can get the Democratic nomination for President in 1952 just by asking for it. Quite a few Democrats think he can get it even without asking. . . . Strangely enough, some of the most powerful leaders of the Republican party want Ike just as desperately as the Democrats do."

In other words, no one knows whether the General is a Democrat or a Republican. A professional soldier has no politics. After he left the Army, he gave no public evidence of an attachment to either party. And now he is back in uniform again, so there is small chance of clarifying his political position in the near future.

Newsweek explains the Democrats' keenness for the General in these words: "The Democratic Party is split wide open on almost every conceivable domestic issue. On foreign policy, in contrast, the party is almost completely united. Ike's very vagueness on domestic problems, therefore, makes him an ideal Democratic candidate. There is nothing in his record that could alienate any of the groups which compose the Democratic Party: the ADA (Americans for Democratic Action) liberals, the conservative Southerners, the big-city bosses, the labor-union leaders, the Negroes." That is certainly not true of any other potential Democratic candidate now visible to the eye.

On the Republican side of the fence, he has the strong support of such still-potent figures as Governor Dewey. But here he runs into the powerful Senator Taft, who clearly wants the nomination for himself, and who in the view of millions is now "Mr. Republican." The probabilities are that the Senator now has the inside track, but many a change could occur by convention time.

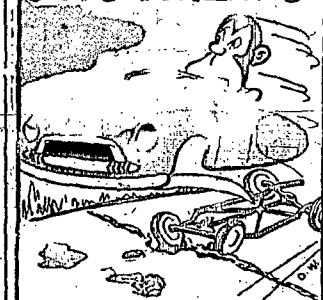

One more quotation from Newsweek indicates the odd possibilities: "If the parties follow custom, the Republicans will hold their national convention first. And as things stand now, the choice will be Taft or Eisenhower. . . . If Taft gets it, the Democratic convention may well open with Ike the almost unanimous choice."

Slim And His  
"Ali Species"

Slim Baker, who's always doing  
something crazy, had a lot of people  
smiling last week because his entry  
won a ribbon in the Women's Club  
Annual Pet Show.

Seems as though Slim saw a  
strange-colored alley cat with no  
tail over at Central City and  
brought it home. He washed,  
combed, and brushed it and put a  
collar on it with a card reading  
"Ali Species." Then he enters it  
in the show.

Hanged if the ladies didn't  
think it was some rare kind of cat  
and gave it a special award! When

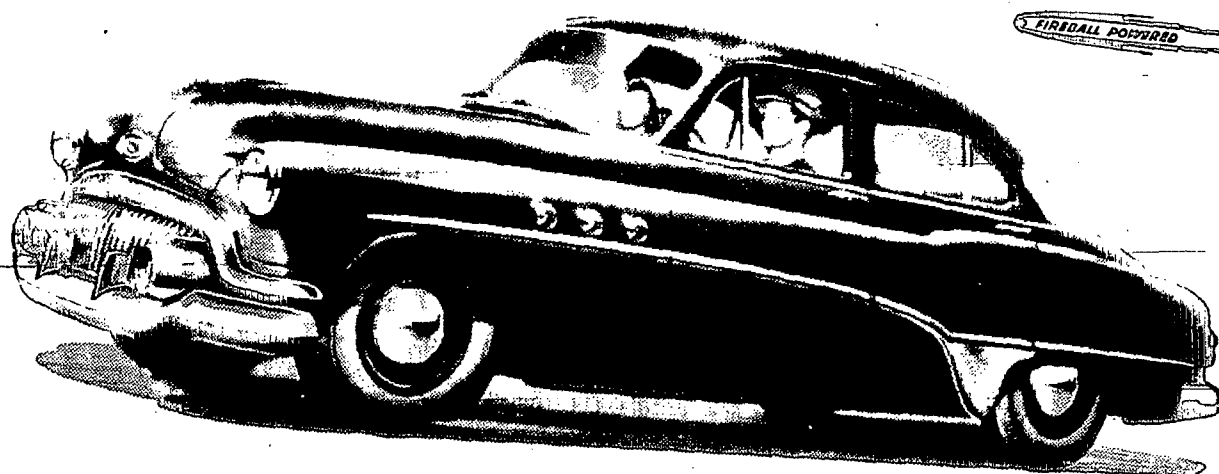

one of them asked Slim where she  
could get one like it, he said, "It's  
all yours, M'am—I can get an  
'Alley Cat' anytime I want!"

From where I sit, some of us are  
pretty easily "taken in" just be-  
cause someone else says it's so.  
Whether it's awarding prizes or  
passing judgment on a person's  
right to enjoy a temperate glass of

all about before making up our  
minds.

### Weekly News-Letter

From the Desk of Representative Emil A. Peltz.

Glancing over the weekly newspapers that I receive each week and I find an interesting article in the Otsego County Herald Times that is written to the editor in the "Open Forum" column that particularly attracts my attention. It is written by a lady who I believe means well, but who either misunderstands or has been misinformed.

In her letter to the editor in this column she accuses both Senator Andrews and me of neglecting the St. Lawrence Waterway project and she writes in part as follows: "In a Detroit paper Sunday I noticed that this bill lies in a committee where it seems doomed to stay unless the citizens rouse their representatives. The railroad owners' lobby is managing to keep it blocked. What part are Rep. Peltz and Senator Andrews playing in this? Why should not the whole legislature vote upon its merits instead of just a few in committee? We in our little community are sending letters to Lansing asking why."

The Michigan Legislature has passed resolutions in every session since 1943 in favor of the St. Lawrence Waterway.

I do not know what Detroit newspaper the lady refers to. Neither have I seen or heard of the article she refers to. I have time and again warned my readers to take with a grain of salt items appearing in the daily newspapers. Whether, in this case, the lady misunderstood or the newspaper erred in its information to the public, I do not know. In order to clear up any false impression that others too might gather from the account she mentions and to avert a useless flow of letters to Senator Andrews and to my desk, let me give you a few simple facts about the St. Lawrence Waterway project.

First, there is no bill before the Michigan Legislature to establish this waterway. While such a waterway would connect the Great Lakes with the ocean the waterway itself would not be constructed in the State of Michigan, and the decision will therefore not be made by the Michigan Legislature.

Second, it is a federal project. The bill is in the hands of the U.S. Congress.

doubt has been introduced in Congress. We of the Michigan Legislature do not vote on bills in Washington, nor do we have a voice in the discussion for or against any legislation before Congress. It is a question that the 48 states must decide.

In the third place it must be remembered that the St. Lawrence Waterway is an international problem. Its undertaking and ultimate completion would involve a treaty with Canada which makes it much more difficult than the average person believes. Congress have been wrestling with the problem for several years and we believe that eventually a solution will be arrived at.

We are certainly not opposed to the project. If it is good for Michigan, we are wholeheartedly for it. We have confidence in Congressman Charles A. Potter and the other Michigan congressmen to the extent that we feel that they will work for the welfare of our great state. We feel that they will weigh both sides of the question carefully and we will abide by their final decision. It may be extremely difficult for them to get the congressmen from other states who would not be as directly benefited as Michigan would be to vote in favor of such a huge project. No one state could possibly afford such a huge undertaking and with the large national debt it is doubtful whether or not our Congressmen are willing to spend such a huge sum for the project at this time.

I repeat, that we of the Michigan Legislature have no voice in the decisions by Congress in Washington. I am glad that we don't. We have troubles enough of our own. With about 600 bills before us in this session so far, we are going to be pretty busy for a long time, and we have our own budget to balance.

During the last 2,000 years, 132 species and subspecies of mammals have become extinct.

Vineyards to produce wine were started in California around 1769 by Franciscan priests.

Lansing — The Legislature responded promptly last week to

my appeal to call a halt on pending tax measures and sit down and talk the whole question over.

Bi-partisan committees of the House and Senate conferred with me for more than an hour. On the whole, I think we made some progress toward reaching a better understanding on this tax question.

Bills to impose some \$45 million in new taxes have been held up in the House and Senate, pending the discussion with me.

ing the discussion with me.

"How Much?" Our first discussion centered about the questions of how much additional revenue the State is likely to need in order to meet our expenses. It was my feeling that the total need of the State's general fund for additional revenues in the next 15 months would be somewhere in the neighborhood of \$79 million, plus Civil Defense and fire losses.

But some of the Legislators felt that the budget we presented for the 1951-1952 fiscal year was too low, and that we failed to include some prospective costs. These Legislators expressed doubt that we can get by on the amounts I requested. They seemed to feel that our actual expenses will be higher than my appropriation recommendations, and that we will therefore have a somewhat larger deficit to meet with new revenues.

I admit that the budget I presented is a very tight budget. It will not be easy to operate the state government within the rigid limits of economy which that budget would impose.

But it is my theory that the national emergency requires us to hold all non-defense costs to the minimum. I don't mean that we should cut essential state services or abandon any of the things which are important to our American way of life. But the tax load on the people of the United States is going to be so heavy for defense purposes (and necessarily so) that we must squeeze every dollar that is appropriated for non-defense purposes.

More Meetings Scheduled: The bi-partisan legislative committees finally left my office with an understanding that I would prepare for them some additional figures to show the expected size of the State's deficit.

It was agreed that as soon as those figures can be assembled, we will meet again and attempt to talk out our differences over tax measures. Maybe by the time you read this there will be some good news out of these bi-partisan meetings. I certainly hope so!

The Question: The major difference over the tax program concerns the question "Who is going to pay?"

Everybody admits we must raise some more revenues both for the Highway Fund and the General Fund. Some of the Legislators want to do it by a 2-cent increase in the gas tax, and a group of new general fund taxes—like the proposed 3 per cent tax on the privilege of driving a used car.

My position is that we ought to wrap up our whole tax program in one "package" with a corporation profits tax, earmarking an adequate portion of it for the highway program.

By this method, we could avoid the kind of new taxes that hit the family budget and reduce family income. And we could get the roads fixed without any additional money from the people of Michigan. The portion of the corporation tax earmarked for roads would be offset by federal tax rebates to the taxpaying corporations.

The kind of tax that is paid directly out of the citizen's pocket on the things he uses or buys in his daily life is what we call a "consumer" tax. I think Michigan has enough of that kind of taxes.

Economy: I was looking through an old copy of a Lansing newspaper the other day, and I came across another Governor whose economy program caused some consternation.

According to the newspaper account, Governor John S. Barry (1842-45) refused to allow the grass on the (old) Capitol lawn to be cut until it had grown tall.

"The Governor himself would proceed," the story said, "to cut it himself, cure it, sell the hay and deposit the proceeds in the state treasury."

I may as well admit I don't intend to go that far. The present Capitol lawn is pretty big!

Caucus: For the first time in my life I attended a Republican Legislative caucus last week.

But it was solely for the purpose of taking part in an observance of the 81st birthday of the dean of the House of Representatives, Joseph Warner of Ypsilanti.

Members of both parties joined in congratulating Representative Warner, whose good humor and kindness have made him every-

body's friend during the 26 years in the Legislature.

Recovery From Fire: The speed and courage with which the state agencies have recovered from the disastrous blow of the State Building fire is an inspiring thing.

With little more than 24 hours interruption, the state's business has gone ahead, under severe handicaps, and in temporary quarters. Many important agencies are housed in Quonset huts at Michigan State College. Others are in such places as the Prudden Auditorium, where the Public Service Commission rings down the curtain and occupies the stage, when it holds a meeting.

The highest praise is due the state officials and employees who have worked long hours to transfer records and equipment from the fire-swept state office building, and keep essential state agencies operating.

Commission on the Aged: One of the problems of a modern state is the welfare of its older citizens. As medical science lengthens the life-span of mankind, the proportion of our people in the upper age brackets tends to increase.

It isn't purely a question of economics. Older people need to be helped to find useful and satisfying way to occupy their time. They need to feel that they are a part of the community, and that they are contributing to the welfare of our society.

No nation can be prosperous and happy if it neglects its older people.

Some time ago I set up a committee of state department heads to consider the problem. This committee recommended the establishment of a special Governor's Commission to make some long-range plans for the welfare of our older citizens.

Last week I appointed the Governor's Special Commission on Problems of the Aging. As chairman I named Mrs. Harold S. Patton, a member of the faculty of Western State Teachers College at Kalamazoo.

Among those appointed as members of the Commission are: Mrs. Harold S. Patton, Kalamazoo, chairman, a member of the

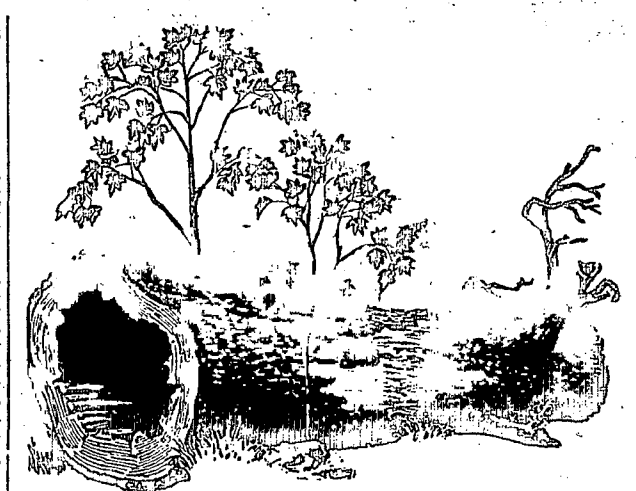

faculty of Western State Teachers College; Mr. Paul Adams, Sault Ste. Marie, attorney; Rabbi Morris Adler, Detroit; Mr. Roy Anderson, Mesick, farmer Mr. John Badoud, Detroit, United Mine Workers; Mr. Harry Becker, Detroit, UAW-CIO; Mrs. Elizabeth Belden, Lansing; Mr. Don Black, Jackson; Dr. Warren Cooksey, Detroit, Wayne Co., Medical Society; Dr. Wilma Donahue, Ann Arbor, University of Michigan; Miss Ruth Edison, Detroit, nurse; Mrs. Pauline Eisinger, Battle Creek, AFL auxiliary; Rev. Charles M. Herbst, Iron Mountain, Catholic Chaplain, Veterans' Hospital; Mr. Charles Hicks, Alma; Dr. Clifford Keene, Detroit, Kaiser-Frazer Corporation; Mrs. Harry Markle, Rochester; Dr. Hugh Masters, Battle Creek, director Kellogg Foundation; Mrs. Ola F. Moody, Battle Creek, American Pension Committee; Mrs. Frances S. Pettengill, Detroit; Mrs. Leonard Rall, Lansing, League of Women Voters; Dr. William B. Sperry, Detroit, Michigan Council of Churches; Mr. C. A. Stanislaw, Lansing, Brotherhood of Railroad Trainmen; Dr. Albert Wheeler, Ann Arbor; Mr. George White, Utica, Mechanics Educational Society of America; Mr. Leonard Woodcock, Regional Director, UAW-CIO, Muskegon; Mr. George W. Woodson, Lansing, Townsend Clubs of Michigan.

Beans: Public officials don't normally expect thanks for trying to do their duty. But once in a while somebody sends me a message that makes me feel good.

Last week I got such a message from the Michigan Bean Shippers Association.

"Our Governor has spent considerable time and effort with the proper authorities in Washington to move the surplus off-color beans through government agencies. We now understand that assurance has been given that the United States Government will purchase a quantity of such (Michigan) beans. Be it resolved that we hereby extend to Governor Williams our most sincere thanks and appreciation."

I am glad, indeed, that we seem to have been able to give some help to Michigan bean growers. The effort to find a market for Michigan beans, now threatened with spoilage, is continuing.

## That April 2 Election Is Important

Six important state educational offices are to be filled in the election on April 2. These offices include two members of the Board of Regents at the University of Michigan, two members of the Board of Agriculture at Michigan State College, a member of the State Board of Education, and the office of State Superintendent of Public Instruction.

Dr. Lee M. Thurston is a candidate to succeed himself for this office. Dr. Thurston was born and educated in Michigan and has been a teacher and school superintendent. He was deputy Superintendent of Public Instruction when he was promoted to the office of state superintendent.

Tremendous strides have been made in Michigan education during Thurston's term of office. More than 5,000 new classrooms have been built for Michigan's expanding school population. Fifteen hundred new buses have been added to the school bus fleet. More rural boys and girls are in high school than ever before.

The program emphasis has been in improving the teaching of citizenship including the American way of life and the fundamentals like reading, writing, arithmetic, and spelling. He has consistently emphasized the local control of schools and argues that the greatest improvement will come in education when all citizens and all

Marine Sergeant Robert R. Hale reunited with his two brothers for the first time in seven years. Sergeant Hale born in Flint, also his brothers, Patrick and Ernest. Hale, now of Saginaw, was one of 1,166 Marines who recently landed at San Francisco on leave from the fighting in Korea. He is the son of Mrs. Alfred Losee, 395 Bacon Rd., Saginaw, Michigan and grandson of Mrs.

Margaret Hale of Flint and Mr. and Mrs. Ernest Shook of Grayling.

Before leaving Korea, Hale was snapped by Life photographer Wayne Miller as he led members of B Company 5th Marine Regiment through a mountain pass during the fighting along Naklung River last September. The picture shows Hale, who was corporal then, running in a crouch with gun in hand along a path and over the body of a dead North Korean. Just after this picture was taken Hale was shot in the hand. Later in the attack on Seoul he was again wounded.

The two wounds made him eligible for return to the United States and instruction duty. He was also wounded in the fight on Guam in World War II.

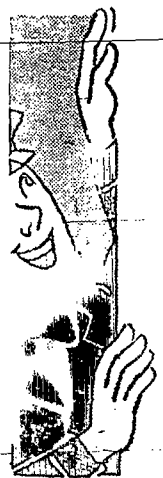

Hale came from quite a military family, his grandfather Hale was killed in the first World War, fighting with the Canadian troops and his two brothers, Patrick, who is in the Navy, and stationed at Whiting Field, Florida, and brother, Ernest P., who served 2½ years in the Navy, also and now lives in Flint with his wife and son.

Sergeant Hale took advantage of his furlough by marrying Miss Helen Stoll of Saginaw on March 19th in Indiana.

In the Matter of the Petition of John B. Martin, Jr., Auditor General of the State of Michigan, for and in behalf of said State, for the sale of certain lands for taxes assessed thereon.

On reading and filing the petition of the Auditor General of the State of Michigan praying for a decree in favor of the State of Michigan, against each parcel of land therein described, for the amounts therein specified, claimed to be due for taxes, interest and charges on each such parcel of land, and that such lands be sold for the amounts so claimed by the State of Michigan.

It is ordered that said petition be brought on for hearing and decree at the April term of this Court, to be held at Grayling in the County of Crawford, State of Michigan on the 10th day of April, A. And it is further ordered that in pursuance of said decree the lands described in said petition for which a decree of sale shall be made, will be sold for the several taxes, interest and charges thereon as determined by such decree, on the first Tuesday in May thereafter, beginning at 10 o'clock a. m. on said day, or on the day or days subsequent thereto as may be necessary to complete the sale of said lands and of each and every parcel thereof, at the office of the county treasurer, or at such convenient place as shall be selected by him at the county seat of the County of Crawford, State of Michigan; and that the sale then and there made will be a public sale, and each parcel described in the decree shall be separately exposed for sale for the total taxes, interest and charges, and the sale shall be made to the person paying the full amount charged against such parcel, and accepting a conveyance of the smallest undivided fee simple interest therein; or, if no person will pay the taxes and charges and take a conveyance of less than the entire thereof, then the whole parcel shall be offered and sold. STATE OF MICHIGAN.  
In the Circuit Court for the County of Crawford  
In Chancery.

In the Matter of the Petition of John B. Martin, Jr., Auditor General of the State of Michigan, for and in behalf of said State, for the sale of certain lands for taxes assessed thereon.

To the Circuit Court for the County of Crawford, in Chancery:

John B. Martin, Jr., Auditor General of the State of Michigan, respectfully shows unto the Court:

1. That he is the Auditor General of the State of Michigan and makes and files this petition under, by virtue of and pursuant to the provisions of Act No. 206 of the Public Acts of 1893, as amended, and Act No. 126 of the Public Acts of 1923, as amended.

2. That Schedule A annexed hereto is the tax record required by the act first above mentioned and contains the description of all lands in the aforesaid county upon which taxes, which were assessed for the years mentioned therein, have remained unpaid for more than one year after they were returned as delinquent; the description of all lands in said county heretofore bid off in the name of the State and thus held and upon which taxes which were assessed subsequent to the tax for which such lands were sold to the State have remained unpaid for more than one year after they were returned as delinquent, and the description of all lands in said county which are delinquent for any installment of taxes under the provisions of the act last above mentioned;

3. That extended separately in said schedule against each description of said lands therein contained are (a) the total amount of delinquent taxes upon said description for the non-payment of which the same may lawfully be sold at the next annual tax sale, (b) interest computed thereon as provided by law to the first day of May, next ensuing, (c) a collection fee of four per cent and (d) \$1.00 for expenses, all in accordance with the provisions of the act first above mentioned;

4. That all of the aforesaid taxes, interest and charges are valid, delinquent and unpaid, and have remained delinquent and unpaid for sufficient time to authorize and require, as provided by the foregoing acts, the sale of the aforesaid parcels of land against which they were assessed and are extended in said schedule at the next annual tax sale for the non-payment thereof, and that the said taxes, interest, collection fee and expenses are extended in said schedule against each parcel of land therein described constitute a valid lien upon each of the said several parcels of land described in said schedule as therein and against which extended in favor of the people of the State of Michigan, the payment of which lien this court may enforce as a preferred or first claim upon such lands by the sale thereof.

Wherefore your petitioner prays:

a. That within the time provided by law this court may determine and decree that the aforesaid taxes, interest, collection fee and charges are valid and constitute a valid lien upon each of the said several parcels of land described in said schedule as therein extended;

b. That within the time provided by law this court make a final decree in favor of the State of Michigan against each parcel of said lands for the payment of the several amounts of taxes, interest, collection fee and expenses, as computed and extended in said schedule against the several parcels of land therein contained;

c. That said decree provide that in default of the payment so ordered of the said several sums computed and extended against said lands in said schedule, the said several parcels of land, or such interest therein as may be necessary to satisfy the amount decreed against the same, shall severally be sold as the law provides;

d. That your petitioner may have such other and further relief in the premises as to this court may seem just and equitable.

And your petitioner will ever pray, etc.

Dated, January 26, 1951.

JOHN B. MARTIN, JR.,  
Auditor General of the State of Michigan,  
for and in behalf of said State.
